

For Immediate Release: Reverie Saga will launch on October 5th, 2021

One of the most beautiful and unique games I've ever played...

Reverie Saga is a brand new LGBTQIA+ indie game demo by Seagull Fish Entertainment. The game is a 2.5D hand-illustrated action adventure platformer with a heavy emphasis on beautiful graphics and world building.

The visuals of Reverie Saga were created through hand-drawn elements blended with art and photography via Photoshop. It also features an in-depth expansive storyline and tons of colorful characters and enemies.

You play as Trinket, the princess of a paper doll fairy tale land, currently ruled by your wicked stepmother, Lady Countess. It is the night before you become queen, and you must traverse the countryside seeking out the spirits. Danger lurks around every corner however, for Countess has secretly put a bounty on your head.

Indie game success stories like Braid, Monument Valley, and Ori and the Blind Forest all feature eye-catching graphics and engaging gameplay. Reverie Saga takes these elements and adds a richly created universe, full of mythology, lore, and unlockable secrets.

"Reverie Saga is possibly one of the most beautiful and unique games I've ever played. It has a superbly premium indie feel with a highly unique hand-drawn art style. You can tell it is a labour of love from a true artist"

-Robin Gray, Gaymingmag.com Founder

FEATURES-

- Hand-illustrated graphics
- LGBTQIA main characters/storylines
- 2.5D gameplay with planned perspective shifts
- In-depth expansive storyline
- Unlockable weapons, character upgrades, and super powers

Artist Gary Adrian Randall has been working on the game for the past 7 years, and will now release a public beta on Itch.io to start building a fanbase and secure funding to finish the game. The public beta is the first of seven planned levels. Future levels will be released in 2022 on Itch.io, Steam.com, PC, Mac, Playstation, and Nintendo Switch.

The Reverie Saga demo is currently playable on Itch.io (password protected) and will formally launch on Tuesday, October 5th, 2021.
